TRADE REVIEW.

The general produce market with the ex-  
ception of eggs, continues about the same as  
last week. The fine weather has brought the  
egg market down to about its normal basis.To-day's quotations are 15¢, and commission  
men state that they will be down to 12¢ in a  
few days.The grocers report only few changes in their  
commodities, and say that trade is excellent.The flour and feed dealers report a good  
trade and in some instances lower prices.The lumber dealers also are handling lots of  
reasonable goods in their line. Some of the  
leading staples are lower. A brisk trade  
is also announced.The paint and oil dealers report that prices  
have reached the bottom point and trade is  
beginning to be quite brisk.The receipts of grain during the past week  
were about the average and the prices paid  
were a little better than the previous week.The live stock market is not quite as brisk  
since the cold weather but enough have been  
received to keep the packing houses busy,  
and prices were very fair.The following prices are charged retailers  
by jobbers, wholesale and commission mer-  
chants with the exception of grain, which is  
quoted at the prices furnished by the eleva-
